

MD-DCS BO module, 6x MTPD

for MD-DCS modular panels

Description

Polycarbonate (PC) front plate with adapters.

Application

MD-DCS MTP® modules are suitable for all high-density and high-performance applications with duplex signals, particularly in the data centre environment.

They find modular application in the slots of the MD-DCS modular panels (19"/1U) in which they can be inserted from the front.

They are used to accept pre-assembled MTP trunk cables.

Packing densities of up to 576 fibres on 1U are achieved with these modules.

General properties

Acceptance capacity	144 fibres (MTP ₁₂)
System	MD-DCS

Mechanical properties

Adapter type, front side	Type A (key up/key down)
Adapter, front side	6 x MTPD, black, Type A (key up/key down)
Adapter material, front side	Polythermide
Dust protection, front side	yes
Laser protection, front side	no
Dust/Laser protection, front side	Dust plug
Sleeve material, front side	Polyphenylene sulfide resin

Scope of delivery

Snap-in front plate, equipped with 6x MTPD adapters

Standards

MTP standard (IEC)	IEC 61754-7, IEC 61755-3-31, IEC 61755-3-32
