

Pole Mount Box

IP65, for up to 6 fibres

Compact pole mount fibre termination box for outdoor use, suitable for connecting up to 3 surveillance cameras

Description

Compact pole mount fibre termination box for outdoor use. IP65 housing with PG gland, suitable for outdoor pole mounting with only limited space or for wall mounting. The housing can easily be installed on a DIN rail with a mounting clip. It can accommodate up to 3 LCD, E2000 or SC adapters so that 3 cameras can be connected. The solution offers a removable splice tray and a clear and simple fibre management. PG gland for cable entry up to 13 mm. One or more grommets are used for the output. The box can be locked with simple screws.

Application

For the connection of up to 3 surveillance cameras. Ideal for outdoor application.

Scope of delivery

Compact IP65 plastic housing for pole or wall mounting.
Removable splice tray.
Integrated fibre management.
Optional: Mountingclip for DIN-rail (Article number: 4750580)
